## Regulatory & Tax

## <u>Regulatory: Protect Sector at Federal, State, and</u> <u>International Levels</u>

- Engage with upcoming **TTB rulemakings** on nutritional, ingredient and allergen labelling
- Provide **real-time updates and analysis** on meaningful and material legislation and regulatory changes
- Inform members on **labelling standards**, including aligning with upcoming EU requirements
- Offer **resources and guidance** to help members navigate international trade laws and regulations (e.g., EU labelling)
- Inform and engage members on EPR, recycling legislation and regulations
- Protect industry from attacks on **tied house** laws, expanded monopoly protection laws, and other inter-tier challenges to protect against increased costs and restrictions to market access
- Engage in environmental and labor law legislation to improve when possible and minimize harm at a minimum (e.g., legislation to reduce wildfirerisk, water regulation)
- Be **the voice for California wine and US wine sectors** in key regulatory and policy forums

## Tax: Lobby for Fair Taxation

- Prevent the expansion of Public Health influence in calling for any **earmarked excise tax** increases
- Prevent efforts to reclassify gallonage taxes as "by the drink" taxes
- Ensure broader **tax legislation** does not make changes to CBMA or negatively impact state wine taxes

## Public Policy & Advocacy

## **Public Policy**

- Actively participate and engage in legislative processes to influence **policy developments** that affect the wine industry
- Actively review and provide comprehensive analyses of proposed legislation or regulations substantially impacting the industry
- Secure federal funding (for example, but not limited to, USDA smoke exposure research, wildfire and disaster recovery programs)

## <u>Advocacy</u>

- Continue **building relationships** with government and industry-relevant stakeholders globally to enhance influence and address industry challenges
- Assess the involvement of WI in key domestic and international organizations
- Address efforts by distilled spirits producers to promote "alcohol equivalency"
- Leverage DTC opportunities
- Fund, publish and communicate **impact reports** ann ually

## Regulatory & Wine Dialogue

## Regulatory & Wine Dialogue

- Communicate with government, addressing misinformation on no-safe levels
- Build **new communications tools based on We Grow Wine** highlighting that wine is an agricultural product that is grown
- Develop wine dialogue messaging, narrative, and communications and engagement plan for use by all members and WI
- Advocate for harmonized and modern standards in labelling
- Ensure the next edition of **DGA** includes alcohol recommendations based on a clear preponderance of available scientific evidence
- Continue to offer platforms and opportunities to engage with other industry groups, when interests align

  - Available funding sources and plans to secure additional funding
  - Identify priority markets, programs, and resources to develop export opportunities
  - Recruitment and retention strategies to continue to grow Export Program membership
  - Update and review three-year plan biannually
- Advocacy team specifically: advocate for the removal of tariff and non-tariff barriers in targeted export markets
- Continue existing partnerships and strengthen relationships with domestic and global wine organizations and relevant government stakeholders

## Grow Sector Appeal & Market Share

- Use the learnings from research, test markets (completed) and blitz pilot (KPIs to be agreed) to develop a toolkit - assets/data to act as united narrative for members
- Create a consistent narrative aligned to the Cultivating Togetherness & We Grow Wine initiatives for California wines rooted in its uniqueness, culture, heritage, social & economic impact and sustainability leadership, that can be easily adopted by members
- Create new communication platforms for members to utilise and build awareness, elevate image, and increase value of California wines with consumers, policy makers, trade and media globally
- Facilitate and assist members to leverage platforms (including resources, insights, knowledge, messaging, communication tools)
- Leverage new communications channels and partnerships such as social media / influencers / celebrities / food and lifestyle brands alongside traditional media efforts
- Facilitate non-competitive information sharing among members on sector-wide topics such as market / consumer trends

\* The California Wines Export program is open to all wineries that sell California wines, regardless of Wine Institute membership and is governed by a 12-person Executive Committee that is comprised of Export Program members who actively participate in programs around the world. The committee includes a diverse representation of small, medium and large wineries from various regions as well as brokers. Each committee member is nominated and approved by current Export Program members.

\*\*Three-Year Export Strategy Plan will be shared in February 2025 to program's members for feedback and completion
